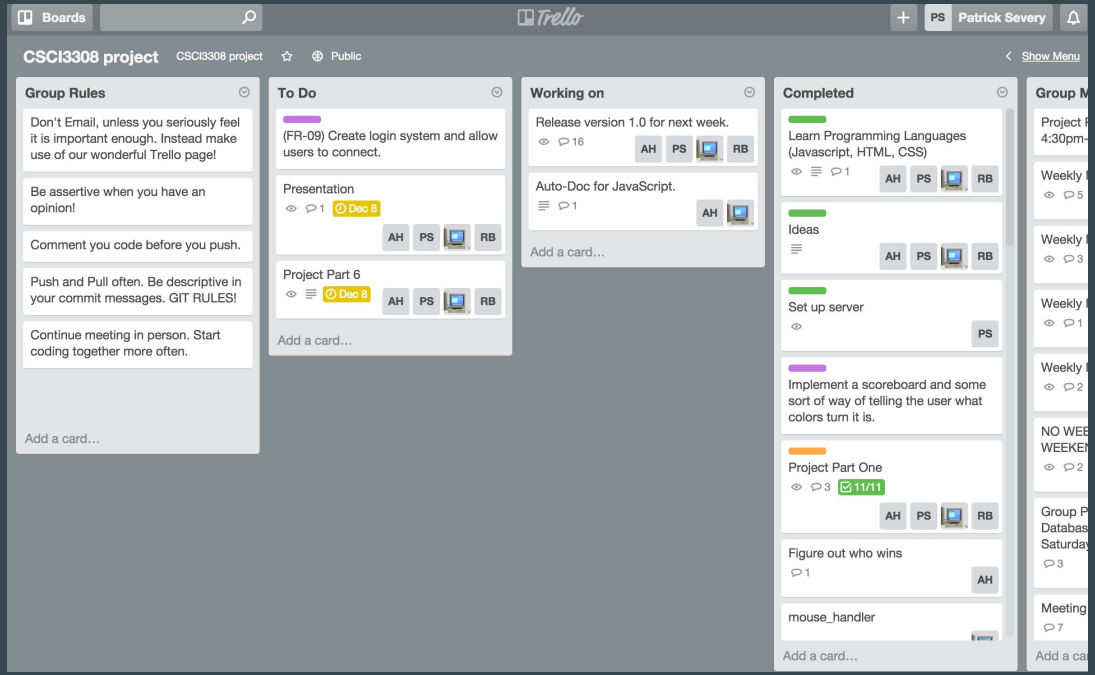
Patrick Severy, Ryan Baten, Peter Delevoryas, Andrew Huang

College Agile: *methodology*

- Weekly meeting
- Continued communication over Trello
- “Scrums” at the start of lecture

GitHub: *version control*

Trello: *project tracking*



Trello

★★★★

MongoDB: *database*

mongoDB®

★★★★

Testing

- Wrote our own autotester
- Also used browser's development console and user acceptance tests.

JSDoc: *autodoc*

Auto-documentation npm package

Node.js

Red Hat Openshift: *deployment environment*

OPENSHIFT

Challenges

- It took a few weeks to find our stride.
- Small merge conflicts
- Forgetting to check Trello
- Differing Ideas for Solutions to Problems
